

Using your Flex Debit Card at 90% Rule Merchants

In order to keep your Cafeteria Plan in compliance with current IRS Regulations, effective January 1, 2011, your Flex Debit Card will no longer be able to be used at 90% Merchant stores.

You may still purchase your items from the vendor, but you will need to pay for your purchase with another means of payment. You will then need to file a manual claim along with the itemized receipt to be reimbursed.
